B-Tech expands range of video wall mounting solutions

Having recognised the increasing opportunities throughout the digital signage and video wall markets B-Tech Audio Video Mounts continues to develop its range of modular mounting systems for video walls.

The newest addition to B-Tech's range is the 'Pop-In, Pop-Out Freestanding Video Wall Mount'.

Previewed at this year's ISE, the modular system of the BT8351 features technology from B-Tech's other popular video wall mounts; the pop-in, pop-out interface and 8 point tool-less adjustment from the BT8310 and the modular, freestanding frame and fast-fit connectors from the BT8350.

This means the BT8351 can be assembled extremely fast and screens can be seamlessly aligned in a matter of minutes, with continued access to the screens for servicing or maintenance possible no matter where the video wall is installed.

The modular system is scalable up to 7 screens high with an unlimited width and can be re-assembled in multiple configurations, for example a 3x3 kit can be used in 14 different configurations.

Please visit www.btechavmounts.com or email sales@btechavmounts.com for more information about the BT8351 as well as the BT8310 and BT8350 video wall mounting solutions.

Having recognised the increasing opportunities throughout the digital signage and videowall markets, B-Tech audio video mounts continues to develop its range of modular mounting systems for videowalls.

The newest addition to B-Tech's range is the pop-in, pop-out freestanding videowall mount.

Previewed at this year's ISE, the modular system of the BT8351 features technology from B-Tech's other videowall mounts: the pop-in, pop-out interface and eight point tool-less adjustment from the BT8310 and the modular, freestanding frame and fast-fit connectors from the BT8350.

This means the BT8351 can be assembled extremely fast and screens can be seamlessly aligned in a matter of minutes, with continued access to the screens for servicing or maintenance possible no matter where the videowall is installed.

The modular system is scalable up to seven screens high with an unlimited width and can be re-assembled in multiple configurations, for example a 3x3 kit can be used in 14 different configurations.

Premium Video Wall Mounting Solutions

Modular mounting solutions for any application

BT8311

Pop-In, Pop-Out Video Wall Mount

The **BT8310** has the same great features as the BT8311 but also includes B-Tech's pop-in, pop-out mounting system which allows screens to be quickly popped out for easy servicing and maintenance. This feature also aids installation by allowing easy access to the 8 point micro-adjustment.

BRAND NEW Professional Video Wall Mount

The **brand new BT8311** is an extremely versatile mounting solution which can mount video walls directly on the wall, or in an endless variety of pole mounted configurations when used together with B-Tech's modular pole and collar system. Suitable for portrait and landscape configurations the **BT8311** features 8 point tool-less micro-adjustment and is compatible with B-Tech's easy install spacer system.

BT8310

BT8351

Freestanding Video Wall Mount

Fast-fit connectors and a modular design make installations extremely quick and easy. Anything from a 2x2 to 70x7 is possible and one kit can be used in multiple configurations (a 3x3 kit can be used in 14 different arrangements). Non pop-out (**BT8350**) and pop-out (**BT8351**) versions are available as well as a range of accessories - casters, a bolt down kit and flying frame adaptors.

B-TECH AV MOUNTS

Premium Video Wall Mounting Solutions

Save time and money with B-Tech's modular mounting systems

BT8310

Pop-In, Pop-Out Video Wall Mount

Shorten installation times with B-Tech's pop-in, pop-out mounting solution and reusable spacer system. The BT8310 can mount screens in both landscape and portrait configurations and features 8 point tool-less micro adjustment to seamlessly align screens quickly and easily.

Modular Freestanding Video Wall Mount

Fast-fit connectors and a clever modular design means BT8350 installations are quick and easy - perfect for temporary or rental video walls. Anything from a 2x2 to 70x7 is possible and one BT8350 kit can be used in multiple configurations (a 3x3 setup can be used in 14 different arrangements). Castors, a bolt down kit and flying frame adaptors are also available.

BT8350

BT8351

Pop-In, Pop-Out Freestanding Video Wall Mount

Combining all the great features of both the BT8310 and the BT8350, the BT8351 allows access to screens for servicing and maintenance no matter where your video wall is positioned.
