BT8340

CREATING YOUR BT8340 KIT

BT8340 configurations are made to your exact requirements and, as a result, utilise a varying combination of System X components in order to create the perfect solution. Below are technical drawings for the standard components used in every BT8340 configuration: BT8390-VESA400MAF Micro-Adjustment Interface Arms, BT8390-WFK Wall Fixing Kits and BT8390 Mounting Rails (available in the lengths shown). Please visit our System X online configuration tool at www.btechavmounts.com/systemx-configurator to specify your requirements. All dimensions will be automatically calculated and a complete mounting solution with all required parts will be created for you.
