

BT8380-WTB

SYSTEM X™ WALL TIE-BACK

The BT8380-WTB is a tie-back system that provides added stability to B-Tech installations. Compatible with System X vertical columns and System 2 poles using accessory collars, the BT8380-WTB works by securing the installation to an adjoining wall. A tie-back may be required for extra tall installations or set-ups using small floor bases such as the BT8380-FFB or the BT8380-SHB. The BT8380-WTB features an adjustable extension which allows installations to be mounted from 8.4" up to 27.8" from the wall.

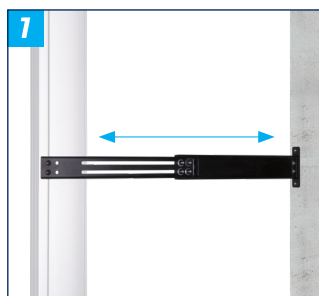

SPECIFICATIONS

Adjustable extension	8.4" - 27.8"mm
Wall tie-backs supplied per pack	1
Color	Black

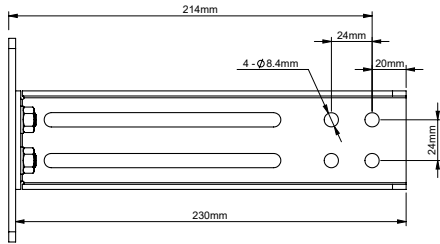

FEATURES

- 1 Adjustable extension allows installations to be mounted from 8.4" up to 27.8" from the wall
 - 2 Secures System X stands that use small bases such as the BT8380-SHB to an adjoining wall
 - 3 Can also be fitted directly to the frame of a BT8350 videowall stand for added stability
 - 4 An accessory collar can be used to attach the BT8380-WTB to System 2 pole mounted installations
- For securing a BT8380 column to a wall
