

## BT8390-VESA400MAP

### SYSTEM X™ POP-OUT INTERFACE ARMS WITH MICRO-ADJUSTMENT

Ideal for assembling videowalls and other multi-screen applications, these interface arms are designed to mount medium to large screens onto System X horizontal mounting rails, providing a solution with easy pop-out access to aid installation and screen maintenance. The universal design is compatible with all videowall screens, and the modular design allows an almost endless number of configurations to be assembled in both landscape and portrait orientations. Tool-less micro-adjustment allows perfect alignment of displays, and a mounted depth of 104mm from the wall allows easy access for cables and connectors.

#### SPECIFICATIONS

Recommended screen size	<b>39" - 75"</b>
Max load	<b>50kg</b>
VESA® & non-VESA fixings	up to <b>400mm</b> (Vertical dimension)
Closed depth (mounted using BT8390-WFK1)	<b>105.4mm</b>
Open depth (mounted using BT8390-WFK1)	<b>273.9mm</b>
Depth adjustment	<b>+/-10mm</b>
Height adjustment	<b>+/-10mm</b>

#### FEATURES

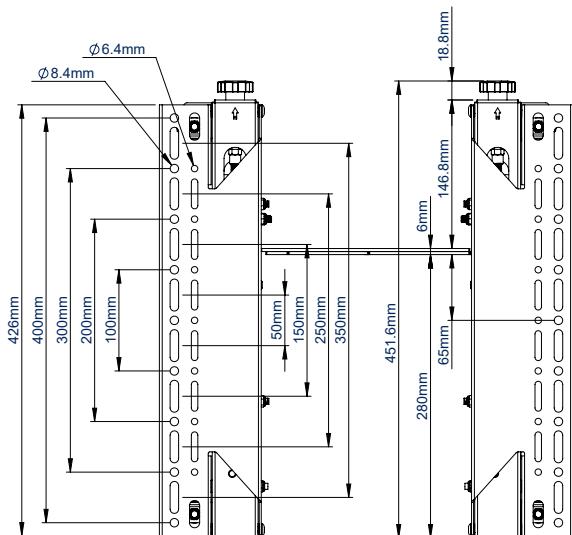

- 1 Ideal for videowalls and other multi-screen installations
- 2 Push to open/push to close system provides quick and easy service access
- 3 Toolless micro-adjustment for seamless display alignment
- 4 Safety screws help prevent unauthorised removal of screens
- Perfect solution for mounting screens into a recessed wall
- Tool-less micro-adjustment for seamless display alignment
- Universal design compatible with most screens
- Suitable for landscape and portrait mounting
- Lateral adjustment - position arms anywhere along the length of the rail
- Simple 'hook-on' installation
- All mounting hardware included
- TUV certified
