

BT8590

XXL FLAT SCREEN TROLLEY

As part of B-Tech's Designer Trolley range, the **BT8590** is a high-end mobile mounting solution ideal for extra large screens such as the LG 110" UM5J Signage Display. Available in a choice of black, silver and white, the BT8590 has a modern, contemporary look with integrated cable management that keeps the finished installation looking neat and tidy. Non-marking 4" braked castors allow the trolley to be re-located easily and safely without marking or scuffing floor surfaces and safety screws help prevent the easy removal of the screen. AV components such as shelves can be accessorised to the trolley by fitting directly to the column or rail.
